Faster response to odour concerns Text: 8601

If you notice an odour from Redvale Landfill and Energy Park, there's now a simple and much faster way to let us know.

You can text 8601 with details regarding odour, and our Environmental Analyst will be notified straight away. We'll begin an investigation within 30 minutes – usually much faster. Our Investigations are more effective when given as much information as possible – location, time, character, intensity, and frequency.

This new system ensures your messages are never delayed and allows us to respond quickly every time. We'll check what's happening on site, visit the property where the odour has been reported, and work with our operations team to take any action needed.

The Redvale team work hard every day to manage Auckland's waste safely and sustainably, and odour control is a key part of this. Some of the measures in place include daily cover, odour-neutralising sprays, and keeping the exposed working face of the landfill as small as possible.

We appreciate your support as we continue to invest in systems that protect our local environment and community.

VDI scale for reporting an odour complaint.

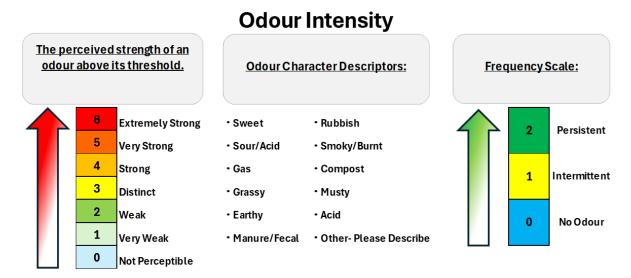

Feedback or Odour complaints can be reported to Redvale Landfill through three different methods,

- 1. Email: redvalecomplaints@wm.nz
- 2. Phone call: 09 427 0600
- 3. Text message: 8601 (New)
- 4. Redvale Energy Park Community Liaison website

To work with us, please provide constructive feedback only, which includes the following information,

- 1. Time and location of the odour
- 2. Type of the odour
- 3. Character and intensity of the odour (descriptor + VDI number)
- 4. Frequency of the odour how often it occurs, duration of the odour and time of exposure.

(Example Text: Hi there, 3/6 intermittent rubbish odour at XX Tender Road right now.)

Please feel free to access Redvale landfill weather station data by using the below link, https://app.outpostcentral.com/english/login2.aspx

Update on the proposal to extend Redvale Landfill

WM New Zealand has completed the third phase of community and stakeholder consultation on the proposed extension of Redvale Landfill and Energy Park.

WM New Zealand

Over recent months, we've met with local residents, Dairy Flat School, community groups and elected representatives to discuss what the proposal could mean for the area. More than 120 people attended the community meeting at the Dairy Flat Hall, and (at the time of writing) 155 written submissions were received. We're grateful to everyone who took the time to share their thoughts, concerns and suggestions.

We heard a wide range of views, with most focused-on odour, truck movements, proximity to the school and the proposed use of the Government's Fast-Track approvals process. These views were taken seriously and helped inform the Board's decision on the proposal.

In response to questions raised during consultation, we recently carried out independent testing of the school's drinking water. Samples were collected from several taps and analysed by Hill Laboratories in line with New Zealand's Drinking Water Standards. The results confirmed that the water is clean, clear and safe to drink, with no sign of bacteria, metals or chemicals that could pose a risk. We've shared the results with the school and we're exploring what further testing could be done to provide additional reassurance for the community.

The Dairy Flat community has lived alongside the landfill for many years, and we understand that residents want to see greater openness, genuine action, and a willingness to listen. We share that goal. Our focus is on building stronger relationships with the community, the school, iwi and local groups, and supporting a Community Liaison Committee that encourages open, constructive dialogue and helps drive ongoing improvement at the site.

To make it easier for people to raise concerns and get clear answers, a new automated system is being rolled out to help track and respond to feedback more efficiently, alongside continued updates through the CLC.

Community members told us it was important that all feedback be received and considered before the Board made its decision. In response, the decision date was adjusted from 29 October to 10 November, ensuring the process reflects that expectation and gives full weight to community input.

We appreciate the community's patience, honesty and ongoing engagement as we work through this process together.

The Pen Is Mightier Than the Sword

As this is the final newsletter of the year, I write with renewed appreciation for the strength and resolve of our community.

Waste Management has announced plans to apply for a *Fast Track* extension of the Redvale Landfill—an extra eight years beyond its agreed closure date of 31 December 2028.

If successful, Redvale would continue taking waste until 2036, despite assurances earlier this year that it would close once the new Wayby (Dome Valley) facility opens—potentially as soon as 2031.

This proposal has caused understandable frustration, given the community's long-standing expectation that Redvale's role would be temporary. However, there are also positive developments.

Waste Management has now completed its closing submissions to the Environment Court, and it appears most obstacles to starting work at Wayby have been resolved. The new site is expected to be a world-class facility, featuring advanced environmental protections, predator-proof fencing, and far stricter controls on leachate, odour, dust, noise, and pests.

These higher standards should also guide any future operations at Redvale.

It is also encouraging that Auckland Council and the Peer Review Panel intend to be far more proactive in enforcing compliance and addressing issues as they arise, not years later.

We were heartened to see local representatives standing firm on behalf of the community. At the recent Waste Management Hui, Mark Mitchell made it clear he opposes the Fast Track approach and will raise his concerns in Wellington. Our Rodney Councillor, Greg Sayers, supported this stance and committed to taking the matter to the Mayor.

As we end the year, I want to thank Louise Johnston for her exceptional nine years of service on the Dairy Flat Local Board, and welcome Lisa Whyte, whose 18 plus years of Council experience should be invaluable for our community.

Wishing you all a peaceful festive season and every success for 2026 and beyond.

Together, we remain a community that values integrity, accountability, and a cleaner, fairer future.

Warwick Hojem

Dairy Flat Country Club News

We are excited to announce that our new menu is now available, offering a variety of delicious options to suit every taste. For those with dietary requirements, we continue to provide gluten free choices. Our kitchen features a dedicated gluten free fryer, and we also offer a tasty gluten free pizzas. We are also the only takeaways in Dairy Flat, and we are open until 9pm!

Louisiana Chicken Burger

Fish and Chips

The pool heating is now on for summer!!

Conveniently located at 36 Landfill Access Road, the Dairy Flat Country Club is the ideal destination for families and locals alike.

Parents can take a well-deserved night off from cooking while children enjoy playing in the pool or on our playground. It's also a wonderful spot for friends and community members to gather and enjoy a great meal together.

The Infiltrator CM-1060 Tank Strong. Reliable. Built to Last.

A lightweight septic tank engineered for long-term performance and hassle-free installation.

The Infiltrator CM-1060 is a next-generation septic tank built for durability, watertight performance and easy installation. Made from advanced compression-moulded polypropylene, it delivers a breakthrough in thermoplastic design – stronger and more resilient than concrete, yet lightweight enough to transport and install without heavy machinery.

Reinforced ribbing and fibreglass bulkheads provide lasting strength under tough conditions, while the watertight build prevents leaks and the reinforced access ports ensure reliability during installation and pump-outs. Heavy-duty green lids blend seamlessly into your landscape, and the tank is fully compatible with Infiltrator's custom-fit risers and patented Biotube® effluent filters for extra system protection.

Versatile by design, the CM-1060 can be used as a septic tank or pump tank.

BENEFITS

- Lightweight & Easy to Install No cranes or heavy trucks needed. Easy access to rural or tricky sites.
- Durable & Resistant Won't rust, crack, or corrode like concrete tanks.
- → Eco-Friendly Made with 95% recycled materials, built to last for decades.
- Landscape-Friendly Green lids that blend into your surroundings.
- → Odour Control Optional carbon filter to minimise smells.
- → System Protection Patented Biotube® effluent filters safeguard your wastewater system.
- → 5-Year Warranty.

Stronger and more resilient than concrete, yet lightweight enough to install without heavy machinery.

PRIMO 🛼 PLUMBING

your local plumber

Meet Dan, Your Local Plumber you can Trust? Dan's your local pro, handling everything from Maintenance work to New builds. An expert in off-grid solutions and filtration, Primo Plumbing designs sustainable water systems for lifestyle blocks and modern homes, ensuring top performance and comfort. Available 24/7 for emergencies, Primo Plumbing is upfront about costs—no surprises, just quality work. Call Dan @Primo Plumbing on 021 428 977 or check out our website or find us on Facebook.

Your wedding, your way—without the cost worries

Looking for a simple, stress-free wedding ceremony that fits your budget?

As an experienced wedding celebrant, my goal is to give back to the community by offering affordable, heartfelt ceremonies that make your special day truly meaningful.

Whether you're planning an intimate elopement, a beachside gathering, or a larger celebration, I provide services tailored to your unique needs.

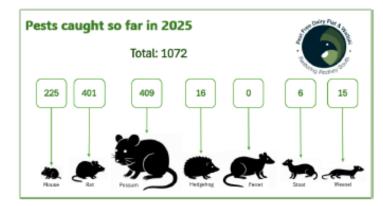

Let's connect, no strings attached and see how I can help make your wedding a personal and memorable experience.

Contact me at nicola@tietheknotnz.com or 0272 698 025 for a chat.

Hello neighbours and friends and welcome to spring!

With all the rain and sun, plus warmer than usual temperatures. everything is growing. And that inevitably means lots of food for our birds & bees. Birds are working hard to raise their broods, which are sadly feeding lots of fat possums and rats - nothing like a plump baby bird or egg snack! So please keep up the great work with trapping!

What have we done this year? By 30th September, 9 months since receiving our first grant from Dairy Flat Community Trust, we had subsidised the purchase of 161 traps and the community has reported 1072 catches! FANTASTIC! And we know that some trappers forget to report their catches, so the numbers are likely to be much higher. But we also see lots of roadkill at this time of year, which reminds us there is still plenty to be done.

Introducing the Rangitopuni Stream Reserve restoration project

While suppressing predators is essential, it goes hand-in-hand with restoring the native environment. So when we came across a neglected Council reserve in the heart of Dairy Flat, alongside the Rangitopuni stream, we saw it as an opportunity. The reserve runs about a kilometre along the western side of the stream, from just north of Landfill Access Road, all the way to Richards Road, Imagine a pathway through beautiful native bush in the middle of Dairy Flat, just opposite our school...

How long it takes to restore will depend on you. It can only happen if the Community gets actively involved - especially with the planting in April/May.

This is your opportunity to help in a transformational project with a lasting and permanent impact on the area. Come and help us! Adopt a tree! Be part of something very special.

Please join us and your local community hub! Tell your neighbours and friends. We need your help!

Facebook: Pest Free Dairy Flat: Email: pestfreedairyflat@gmail.com

With your help, we can restore our local environment and bring back more native birds to our backvards.

Contest result puts Riverhead on the map

There's nothing like a contest to spice-up your interest and motivation. Toastmasters offer four major contests for members worldwide each year. The International, the Evaluation, Table Topics and the Humorous speech contest.

Paul, who founded **Riverhead Toastmasters** along with wife – Tina, took First Place on Saturday in the Division W Humorous Speech contest having already won local contests. The event was held at **Auckland University**. It's the third year running that he has taken the title.

"Humorous speeches can often be generated by recounting one of your misfortunes. At the time, these experiences can be harsh, but looking back, can be rather funny", says Paul.

The win now qualifies Paul to compete for the **New Zealand District 112 Convention** to be held at **Waipuna**, Auckland in May 2025.

RIVERHEAD Toastmasters meets alternate Tuesdays at 7.10PM, Riverhead Hall

If YOU would love to come as a GUEST and see how Toastmasters could build your confidence in speaking and leading, please TEXT Tina 027 291 8027

Dairy Flat Community Hall – Your Local Hub of Fun & Connection!

The Dairy Flat Community Hall is open 7 days a week for local use.

Thinking of starting a class, workshop, or community activity?

The Hall Committee is here to support you with great low starting rates!

What's On at the Hall:

- 🧸 Yoga Mondays
- Toastmasters Every second Tuesday

Full bands, friendly vibes, and visitors from across greater Auckland come for these legendary nights!

(F) Check out what's happening: www.DFlat.info

Licensed bar with club prices - cover charge applies for band nights.

Please note: We're unable to host 18th or 21st birthday parties.

News from Local Clubs and Organisations!

We love hearing from our local clubs and community groups!

If you have updates, events, or stories to share, we'd be delighted to include them in our quarterly newsletter typically published in February, May, August, and November.

Please note: Waste Management New Zealand is not responsible for the opinions expressed in submitted articles.

For contributions or questions, please contact Tara Wiggill at TWiggill@wm.nz

Dairy Flat School Annual Ag Day

Dairy Flat School's annual Ag Day is the school's biggest fundraising event of the year, and has been a tradition at Dairy Flat since 1938. The school opens to the community whānau and friends to celebrate the children's achievements, our rural identity and our agricultural heritage.

The emphasis of Ag Day is on the caring and rearing of a farm animal. All students have the opportunity to bring a farm animal to school, which they will have raised and cared for, to participate in the various judged events. Our children learn valuable life skills through raising an animal and the Ag Day process, such as; caring, nurturing, animal health and welfare, responsibility, leadership, confidence, project presentation (through diaries and performance to the judges), patience and resilience. This year we had 17 lambs, 23 chickens and 6 calves.

For students who may not be able to bring an animal, they take part in other activities such as Lego block activities, mystery seeds, insect hotels and scarecrow creations.

This year Ag Day was held on 11 October 2025, and was another great success. Thanks to our sponsors and the Dairy Flat community, we raised \$26,600 to go toward playground upgrades.
